Skills and Attributes

Head Coach Doug Robertson states, "We have been very successful with our football program in our long history. We have been especially successful in the last seven years where we have won 4 state titles. Currently, we are on a 32 game win streak which is the longest streak in the state of North Carolina. A big reason we have been able to win those games is because of Kenzel Doe. I have known Kenzel for about ten years. His brother, Kendon, played for me several years ago and is currently playing at Fayetteville State University. Since I have known Kenzel, I have known about his passion and desire to play football on a high level. If we were to lose a player right now Kenzel would be the hardest to replace. He has worked hard in the weight room to get stronger for this upcoming season. I have no doubt that Kenzel will be an asset to any football program". Kenzel has unlimited potential, he has speed and plays very smart, he has the ability to make big plays at crucial points in a ball game. Kenzel is a very strong and powerful wide receiver, defensive back and return specialist. Kenzel has soft hands and knows how to make separation with his body and moves. With his wide receiver aptitude he can read the quarterback while blanketing his receiver. Kenzel exhibits maturity and confidence on and off the playing field. Kenzel has explosive short area quickness and is a versatile athlete with high intensity. His aggressiveness and intelligent play make him a viable prospect at the next level. Kenzel brings all the skills and abilities college coaches are looking for in a talented college prospect. These characteristics have earned him a reputation as a leader on and off the playing field. Kenzel will make an excellent addition and an immediate impact to any Football program that values talent, hard work and integrity.
